## You are invited...

to Peter Pitseolak High School on Thursday, March 17 @ 7pm to celebrate the community and public launch of the

## Inuit siku (sea ice) Atlas (<a href="http://sikuatlas.ca">http://sikuatlas.ca</a>)

The *siku* **Atlas** was developed as an educational resource to share the knowledge, stories, maps, language, and lessons from years of interviews, focus groups, sea ice trips, and workshops with Inuit sea ice experts in **Cape Dorset**, **Igloolik**, **Pangnirtung**, and **Clyde River**, Nunavut.

It can be used to learn about:

Inuit knowledge of sea ice features, uses, hazards, and changes

Inuktitut sea ice terminology in different seasons

Cape Dorset elders, hunters, and researchers involved in the project

The Floe Edge Service - satellite imagery available for Cape Dorset

DO SYDS BY POPCE DPD SL

Maps of Inuit sea ice knowledge and use

Background on the larger sea ice project and researchers involved

Come out and celebrate with country food, snacks, demonstrations, and door prizes!

Developed as part of the International Polar Year project called

The Inuit Sea Ice Use and Occupancy Project (ISIUOP), based at Carleton University, through the

collaboration of many northern, academic,
government, and private industry partners.
